Some content is partially compliant, due to the non-compliances listed below.

Non-compliance with the accessibility regulations

Some pages may contain content and / or attachments which are not currently compliant, where this is the case we will endeavour, on request, to obtain an accessible copy from the original source or to convey the information contained in the document in an accessible way:

- Content produced by third parties - not all documents on this website are created by us.
- Content using third party software for example maps.
- Some pdf documents contain elements (e.g. tables) which are not currently fully compliant.
- Some elements contain adjacent links which point to the same destination.

Disproportionate burden

We have not identified any areas that we believe constitute a disproportionate burden.

Content that is not within the scope of the accessibility regulations

Many of our older PDFs and Word documents do not meet accessibility standards – for example, they may not be structured so they're accessible to a screen reader. This does not meet WCAG 2.1 success criterion 4.1.2 (name, role value).

The accessibility regulations do not require us to fix PDFs or other documents published before 23 September 2018 if they're not essential to providing our services.

Documents, including PDFs, relating to the Annual Governance and Accountability Return (AGAR) are provided by an external source and are outside the control of the Council. These documents are not covered by the regulations (Part 1 – Section 4(2)(e)). These

items may contain interactive forms and scanned images and may not work with screen readers.
